NATIVE AMERICAN ASSOCIATION.

Preamble and Constitution of the Native American Association of the United States.

Whereas it is an admitted fact that all Governments are not only capable, but bound by all the principles of national preservation, to govern their affairs by the agency of their own citizens; and we believe the republican form of our Government to be an object of fear and dislike to the advocates of monarchy in Europe, and for that reason, if for none other, in order to preserve our institutions pure and unimpaired, we are imperatively called upon to administer our peculiar system free of all foreign influence and interference. By admitting the stranger indiscriminately to the exercise of those high attributes which constitute the rights of the native born American citizen, we weaken the attachment of the native, and gain naught but the sordid allegiance of the foreigner. The rights of the American, which he holds under the Constitution of the Revolution, and exercised by him as the glorious prerogative of his birth, are calculated to stimulate to action, condense to strength, and cement in sentiment and patriotic sympathy.

Basing, then, the right and duty to confederate on these high truths, we profess to have no other object than the promotion of our native country in all the walks of private honor, public credit, and national independence; and therefore we maintain the right, in its most extended form, of the native born American, and he only, to exercise the various duties incident to the ramifications of the laws, executive, legislative, or ministerial, from the highest to the lowest post of the Government; and to obtain this great end, we shall advocate the entire repeal of the naturalization law by Congress. Aware that the Constitution forbids, and even if it did not, we have no wish to establish, *ex post facto* laws; the action we seek with regard to the laws of naturalization, is for the purpose of acting in a prospective character.

We shall advocate equal liberty to all who were born *quoad* free; to be so born, constitutes, when connected with moral qualities, in our minds, the aristocracy of human nature. Acting under these general principles, we further hold that, to be a permanent people, we must be a united one, bound together by sympathies, the result of a common political origin; and to be national, we must cherish the native American sentiment, to the entire and radical exclusion of foreign opinions and political adventurism. From Kings and gallant forefathers won their liberties—the slaves of Kings shall not win them back again.

Religiously entertaining these sentiments, we as solemnly believe that the day has arrived, when the Americans should unite as brothers to sustain the strength and purity of their political institutions. We have reached that critical period foreseen and prophesied by some of our first revolt of glory, will be the duty of the sons of those wars, and we must go into the combat determined to abide by our country; to preserve her honor free from contagion, and her character, as a separate people, high and above the engraftment of monarchical despotisms.

ARTICLES OF THE CONSTITUTION.

First. We bind ourselves to co-operate, by all lawful means, with our fellow native citizens in the United States to procure a repeal of the naturalization law.

Second. We will use all proper and reasonable exertions to exclude foreigners from enjoying the emoluments or honors of office, whether under the General or State Governments.

Third. That we will not hold him guiltless of his country's wrong who, having the power, shall place a foreigner in office while there is a competent native willing to accept.

Fourth. That we will not, in any form or manner, connect ourselves with the general or local politics of the country, nor aid, nor be the means of aiding, the career of any politician or party whatsoever, but will exclusively advocate, stand for, and be a separate and independent party of native Americans, for the cause of the country, and upon these articles.

Fifth. That we will not, in any manner whatever, connect ourselves, or be connected, with any religious sect or denomination; leaving every creed to its own strength; and every man untrammelled in his own faith; adhering, for ourselves, to the sole cause of the natives, and the perpetuity of a national character, and the perpetuity of our institutions, through the means of our own countrymen.

Sixth. That this Association shall be connected with and form a part of such other societies throughout the United States as may now or hereafter be established upon the principles of our political creed.

Seventh. That this Association shall be styled the "Native American Association of the United States."

Eighth. That the officers shall consist of a President, Vice President, Council of Three, Corresponding Secretary, Recording Secretary, a Committee on Addresses, and such other officers as may be required under by-laws hereafter adopted, and whose duties shall be therein defined.

Ninth. That all the foregoing officers shall be elected by this meeting, to serve for one year, except the Committee on Addresses, which shall be appointed by the President.

Tenth. That the President, or, in his absence, the Vice President, or, in the absence of both, the Corresponding or Recording Secretary, is authorized to convene a meeting of this Association whenever it may be deemed necessary.

NOTICE.—Native American Cause, and "The Native American" Newspaper.—The Native American Association in this city has been in existence nearly two years, and enrolls among its members upwards of eleven hundred out of fourteen hundred of the native citizens of the place.

Its objects are—
To repeal the laws of Naturalization; and
The establishment of a national character, and the perpetuity of our institutions through the means of our own countrymen.

A paper, called "The Native American," was commenced a few days after the organization of our Society, and has already near 1,000 subscribers. In many places our doctrines have found ardent and able friends; but to accomplish our patriotic ends so that we may rely upon ourselves for the blessings of peace, and in the perils of war, it will be necessary for all to take a part, and promptly separate the birthrights of our own People from the indiscriminate pretensions of the paupers and outcasts of the Old World.

We therefore invite our countrymen throughout the Union to form auxiliary associations, and to memorialize Congress for a repeal of the laws of Naturalization. One newspaper is published weekly, at the price of two dollars and fifty cents per annum, payable in advance. We are of no party in politics or religion, but embrace men of all creeds and faiths.

Our motto is—"Our country, always right; but right or wrong, our country."

As every man of the Union who loves the land of his birth is interested in the principles we advocate, we hope each one will voluntarily put forth his hand to help our honest labors, and occasionally cheer us with the cry of "God speed the cause."

Newspapers of all parties throughout the country are requested to give this notice a few insertions, and persons desirous of becoming subscribers, correspondents, or contributors to the paper, are requested to address JAMES C. DUNN.

By order of the President and Council.

CAUTION.

WE are called on to caution the public, the Druggists in particular, against purchasing from any traveller under whatever pretences they may be offered, any of

DR. EVANS' INVALUABLE MEDICINES,

as their unprecedented success in the cure of Consumption, Dyspepsia, Liver Complaint, Indigestion, Costiveness, Loss of Appetite, Palpitation of the Heart, Pain in the Head, Breast, Back and Limbs, Dizziness, Restlessness, and all diseases originating in the Stomach, Heart, Lungs, Liver, and the associated organs, &c., has caused a reckless impostor, who it is ascertained, has been travelling through Pennsylvania, Maryland, Virginia, &c., to counterfeit and vend a deleterious imitation of EVANS' CAMOMILE AND APERIENT PILLS; and another impostor has introduced into Pennsylvania, &c., a spurious article, purporting to be PARIS' SOOTHING SYRUP, for children when cutting their teeth—both of which are deleterious counterfeits. Therefore, in order to protect the public against the inroads of such impostors, and to secure them the benefit which his Genuine Medicines never fail in bestowing, he has caused the label of EVANS' CAMOMILE &c., PILLS, "to be entered according to an act of Congress."

A notice of which entry is printed on the labels on every bottle of the Genuine Pills, and he has caused the name of Dr. J. L. Paris to be stricken out of the label of his celebrated Soothing Syrup, for children when cutting their teeth, so that the label of the genuine syrup reads "DR. WM. EVANS' SOOTHING SYRUP," an infallible remedy for the pain and sickness to which children are subject when cutting their teeth, tested and approved by thousands of mothers and nurses, who have by its early application, not only prevented their children from suffering excruciating pain but in many instances rescued them from death.

Be particular in examining the labels, and also in knowing that Dr. Evans never vends any of his medicines save through the medium of his resident agents, as advertised throughout the Union, or at the Western Office, Louisville, Ky., and his principal office 100 Chatham Street, New York, where wholesale orders will be promptly executed on the most liberal terms.

The public may rest assured that in every instance that comes within the knowledge of Dr. Evans, or any of his agents, where the Counterfeit Medicines are purchased, or vended, he will give them the earliest public notice of the imposition. Already have proceedings both civil and criminal been instituted against several Druggists who have been detected, and their names will be laid before the public at an early date. THE BEST PROTECTION he can offer for the present, is to caution purchasers to obtain his Medicines from the

DR. GOODE'S CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints peculiar to their sex, from want of exercise, or general debility of the system, obstructions, suppression, and irregularity of the menses; at the same time, strengthening, cleansing, and giving tone to the stomach and bowels, and producing a new and healthy action throughout the system generally. They create appetite, correct indigestion, remove giddiness and nervous headache, and are eminently useful in those complaints which distress females so much at the "turn of life." They obviate costiveness, and counteract all hysterical and nervous affections, likewise afford soothing and permanent relief in fluxus albus, and in the most obstinate cases of chlorosis, or green sickness, they invariably restore the pallid and delicate female to health and vigor.

These pills have gained the sanction and approbation of the most eminent physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of conjugal happiness have been defeated, these Pills may be truly esteemed a blissful boon.—They soon remove all functional debility, and if taken according to directions, obviate all morbid humors.

DR. GOODE'S CELEBRATED FEMALE PILLS—are for all the following diseases: Suppression, irregularity or retention of the menses, fluxus albus, chlorosis or green sickness, costiveness, gravel, incontinence of urine, nervous affections, hysterics, prolapsus uteri, or falling of the womb, and piles; also, pains in the side, chest, limbs, head, stomach or back; dimness, or confusion of sight; alternate flushes of heat and chilliness; tremors; watchings; agitation; anxiety; bad dreams, and spasms. This medicine is acknowledged to be one of the most valuable ever discovered as a purifier of the blood and fluids; it is superior to sarsaparilla, whether as a sudorific or alterative.

INTERESTING AND APPLICABLE TO THE AFFLICTED, WITH DISEASES OF THE STOMACH, OR NERVES, such as Dyspepsia either Chronic or Casual, under the worst symptoms; Consumption; Lowness of spirits and general enervation; Consumption, whether of the Lungs or Liver; Liver Affections; Jaundice, both Bilious and Spasmodic; Costiveness; Worms, of every variety; Rheumatism, whether Acute or Chronic, together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side; Typhus Fever, Scarlet Fever, Putrid Sore Throat, Fever and Ague, Spasmodic Palpitation of the Heart and Arteries, Nervous Irritability, Nervous Weakness, Hysterics, Tic Douloureux, Cramps, Female Obstructions, Heartburn, Headache, Cough, the Common or Humid, or the Dry or the Whooping Cough, Asthma, Gravel, and Drops.

The Blood has hitherto been considered by Empiricks and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, Health and Vigor emanate, and *vice versa*, pain, sickness, disease and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful members. He contends—and a moment's reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver, and associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial anodynes usually prescribed, serve but as foils to cover the ravages of deeprooted maladies. Under these convictions, at the expense of years of close application, the doctor has discovered a medicine, which, if administered, he believes to be a radical cure in the various diseases already enumerated, even if applied in the most critical cases, but he does not pretend to ascribe to HUNT'S BOTANIC PILLS a supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up, HUNT'S BOTANIC PILLS have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the healing art.

BOWEL COMPLAINTS CURED.—Jayne's Carminative Balsam is a certain, safe, and effectual remedy for dysentery, diarrhoea, or looseness, cholera morbus, summer complaint, colic, griping pains, sour stomach, flatulency, &c. &c. and all spasmodic and nervous diseases, as sick and nervous headache, hysteria, cramp, &c. &c.

From Dr. M. L. Knapp, late physician to the Baltimore Dispensary, and agent for the Maryland Vaccine Institution, BALTIMORE, MARCH 27, 1838.

DR. JAYNE: Dear Sir: You ask me what proofs I meet with of the efficacy of your medicine. I can safely say that I never prescribed a medicine for bowel complaints that has given me so much satisfaction, and my patients so speedily and perfect relief as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the summer complaints of children it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such a sick child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours. I may say in a few minutes. In fine it is a valuable medicine, and no family should be without it.

Respectfully,
M. L. KNAPP, M. D.

From Dr. Wm. Steeling, Physician to the Cumberland, N. J. Almshouse.

BRIDGE-WN. JULY 19, 1836.

This may certify that I have used Dr. Jayne's Carminative Balsam very extensively in bowel complaints, and have not the least hesitation in declaring it superior to any preparation that I have met with for the relief of those diseases.

WILLIAM STEELING, M. D.

From Johnathan Going, D. D. late of New York, President of Granville College, Ohio.

NEW YORK, MAY 20, 1837.

DR. D. JAYNE: DEAR SIR: Having made use of your Carminative Balsam in my family, and finding it to be admirably adapted to the complaints for which it is intended, I take pleasure in recommending it to the use of my friends and the Public generally, believing those who are afflicted with any of these complaints will find relief in the use of this valuable medicine.

JONATHAN GOING.

From the Rev. H. K. Greene, Professor in the German-town Collegiate Institute.

GERMANTOWN, APRIL 30, 1838.

DR. JAYNE: My Dear Sir: It gives me pleasure to communicate in this manner, my favorable opinion of your Carminative Balsam. For two years it has been in almost constant use in my family. It was thus introduced: A child of five years old had been sick some five or six days with the dysentery. Calomel and other medicines had been largely administered, but without the least apparent benefit. The peculiar discharges from the bowels were unchanged in both character and frequency; the strength of the little patient could not hold out much longer. At this juncture, I was reminded by a friend of your Balsam. After a portion of castor oil, it was administered several times through the night. In the morning, the physician found the discharges essentially changed; the disease was checked, nay, removed; all other medicines were discontinued, and the child was soon restored to usual health. We have ever since kept this invaluable medicine on hand, and for both adults and children have found it uniformly efficacious. We readily pronounce it the best adapted to family use of all the preparations with which we are acquainted. Hoping that the public will soon become universally acquainted with this medicine,

I remain yours, &c.

CONSUMPTION!

DR. RELIEF'S ASTHMATIC PILLS have, from their extraordinary success in giving instant relief, and in curing Coughs, Asthma, Difficulty of Breathing, Wheezing, Tightness of the Chest, Pain in the Side, Spitting of Blood, Chillsiness and Shiverings that precede Fevers and Lung Complaints generally! become one of the most popular Medicines known, and are sought after from every part of the country, on account of the astonishing success which has attended their administration in the above complaints, frequently curing the most obstinate cases, and giving the most unexpected relief after every other remedy has failed, and persons had given themselves up in despair of a cure!

They have been known to cure persons supposed to be far gone in consumption, and exhibiting all the appearance of approaching dissolution.

And such have been the salutary effects of these Pills, even in hopeless cases, as so far to mitigate the sufferings of the patient, as evidently to prolong life for days and weeks, and give to it a positive comfort they never expected to enjoy.

The operation of the pills is wonderful in easing respiration, quieting the cough, and procuring comfortable rest.

Common colds are frequently removed in a few hours.
